OTHER PRIOR ART (Including Author, Title, Date, Pertinent Pages, Etc.)

A ray diagram for a converging lens. A horizontal line represents the optical axis. A vertical line to the left of the axis represents the lens. Two parallel light rays from the left enter the lens and converge to a point on the right, which is labeled 'Image'. A dashed line extends the converging rays back to the left, intersecting the axis at a point labeled 'Object'. A double-headed arrow between the object and image indicates they are on opposite sides of the lens.

EXAMINER		DATE CONSIDERED	03/10/05
